MANUAL

Packge Included

1. Bracket
2. Bracket
3. Screws
4. Blinds

Install Guide

1. Open & Close

Rotate the plastic
open — close

Check the blinds open & close
If one side of the blind is open as shown in the picture,
turn the plastic disc to move the pin inward.

2. Checking components

Both brackets are slightly different so check
which side it fits on before installing brackets to the wall.

3.Install brackets

Mark the bracket locations and fix in place, typically about
10-20mm in from the front edge of the window frame.

4.Install blinds

Chain end first

Make sure you secure the chain end first.

5.Fix the blinds

Rotate the plastic   Turn it and open

Turn the plastic disc to release the pin so that it clicks into the pin
end bracket.

* Outside fitting

When installed outside the window frame

(inside)   (outside)
